Report to the 157th Regular Session of Synod From the Treasurer

Prepared by: Kathryn Rogers,
Treasurer and Director of Finance
May 27, 2017

This report was received by Diocesan Council on May 27, 2017.

The Incorporated Synod of the Diocese of Toronto

Structure of the Financial Statement

The main change to the financial statements in 2016 pertained to the presentation of deferred benefit remeasurement in the Statement of Changes in Fund Balances. Based on a review of the standards it was determined that there was not a need to show the details of the remeasurement as a separate column under the restricted fund category. The change in presentation was used to improve reporting on restricted funds by providing continuity for the internally and externally restricted funds.

Statement of Revenue and Expenses

There was an excess of revenue over expense resulting in a surplus of \$3,029,857 (2015-loss of \$543,246).

Revenue increased for the following reasons:

- While investment income from the Consolidated Trust Fund was lower in 2016 there was a gain in capital appreciation of \$4,957,000 consistent with market performance during the year. The one year rate of return on investments was 10% in 2016 compared to 3% in 2015.
- The property revenue includes amounts designated to the Ministry Allocation Fund from the sale of four properties held by parishes. The largest amount for one property was \$3 million. There was also one new approval for the sale of a former parish property managed by the Synod Office which was sold early in 2017.
- Offsetting those increases was a decrease of \$1.4 million in Our Faith – Our Hope donations. This was expected as the campaign is coming to a close.

Expenses increased for the following reasons:

- When combining grants paid from FaithWorks, Our Faith – Our Hope, Endowment funds and the Ministry Allocation fund there was a total increase of \$3.1 million from the prior year for a total of \$9,229,000.
- Most expense categories were lower compared to 2015 and underbudget.

Comparison to prior year shows the following increases:

- Church growth and development increased due to costs incurred to support two additional parish properties (\$130,000).
- Supporting ordained and lay leaders increased due to a \$45,000 increase in Curacy grants, a Relocation and Retraining increase of \$95,000 which encompasses costs for Canon 10 non-disciplinary terminations which includes transitions between appointments and a \$97,000 increase in retirement allowances which is offset by income from restricted funds held in the Consolidated Trust Fund.

Major Budget Variances include the following:

- Episcopal Expenses were underbudget by \$172,000. The under-expenditure is primarily due to savings from vacancies in the Trent Durham and York Credit Valley offices. The savings were offset by over-expenditures for Aboriginal Ministry which was historically funded through discretionary funds and action planning work by the consultants to support the Strategic Plan.
- The Synod budget was over by \$41,000 as the cost of an episcopal election was included in the 2017 budget not 2016.
- Additional variance comments are included in Appendix 2.

Financial Position

Assets

Assets increased by \$13.4 million mainly due to an increase in the investments held (increase of \$13 million). Other items to note:

Accounts Receivable - Parish receivables have decreased from the prior year. During the course of the year progress was made with respect to having parishes on the overdue list agree to repayment plans.

Of the 18 churches over 90 days 10 are on repayment plans and have been consistent in making payments. The remaining churches are in discussions on how to proceed and their balances have been included in the allowance for doubtful accounts. Subsequent to year end, balances for two parishes not on repayment plans were paid in full totaling \$256,000.

Loans Receivable - Loans increased from 2015 due to 3 new loans being granted from the Ministry Allocation Fund. A total of two loans were closed during 2016.

Properties Held for Sale – One property was put up for sale in 2016 with a value of \$300,000. It was sold February 2017. Two properties remain available to sell at December 31, 2016 although not currently listed.

Liabilities

Liabilities increased from the prior year by \$10.4 million mainly due to an increase in parish investments held in the Consolidated Trust Fund (\$8.5 million). Additionally, payables increased by \$2.1 million due to property sale proceeds being held for newly amalgamated parishes as they work through restructuring plans.

The Cemetery Fund of the Incorporated Synod of the Diocese of Toronto

The Cemetery Fund is comprised of funds invested on behalf of parishes with cemeteries. The investments are reviewed on a quarterly basis by the Investment Committee of the Diocese.

The net gain for the year was \$766,380 which was up from the 2015 result of \$174,886. While investment income decreased and expenses were static there was a gain in the capital value consistent with market results for the year. The overall annual return on the fund for 2016 was 7.8% compared to 1.5% in 2015.

Variance Explanations

General Comments

The Diocese ended the fiscal year with a surplus of \$71,000 compared to a budget of \$44,000 resulting in a favourable variance of \$27,000. There were quite a few changes during the year that impacted the financial situation however all issues were accommodated within the approved budget.

The details of the larger variances from actual to budget are as follows:

Expenditure Variances - Favourable/(Unfavourable) \$89,000

1. Episcopal Expenses - \$172,000 – The under-expenditure is primarily due to savings from vacancies in the Trent Durham and York Credit Valley offices. These savings have been offset by over-expenditures for Aboriginal Ministry and strategic planning. Historically the Aboriginal Minister role was funded through discretionary funds but as the intention is for this to be an ongoing ministry it was felt it should be reflected in the operational budget. The original quote from the consultants for the strategic plan did not include the session or document relating to action planning. The Strategic Planning Steering Committee felt that this was important for the plan to succeed so the cost was anticipated as an over-expenditure.
2. Developing and Supporting Clerical Leadership-(\$161,000) - There are two main contributors to this budget overage including:
 - a. Curacy grants were over budget however they are partially funded by the York Rectory Commission and that revenue is recorded in the Interest on Capital revenue line (\$90,000).
 - b. The relocation and retraining budget was over by \$100,000 which encompasses costs for Canon 10 non-disciplinary terminations which includes transitions between appointments.
3. Synod – (\$40,000) – Costs for an Episcopal election were included in the 2017 budget but not 2016 so an over-expenditure exists.
4. Administration - \$75,000 – Savings were primarily due to no adjustment being required to bad debts and no requirement to use the bank overdraft available (no interest expense).
5. Support for the Wider Church – (\$43,000) – This over-expenditure represents the cost of hosting General Synod.
6. Episcopal Area Budgets - \$56,000 – The under-expenditure is primarily due to the transitions in the Episcopal offices.
7. Property Support – (\$69,000) – The majority of this over expenditure relates to costs to support St. George the Martyr and St Peter, Carlton St.

Note – The amount listed as the budget adjustment was established to hold potential changes to salaries. The only change to this amount is the result of the approved cost of living adjustment being allocated to each department's budget accordingly.
